

**There are lots of other exciting things to do at Longwood Gardens. Explore these fun places:**

### *Where To Go?*

Checkout the **Idea Garden** where you'll find the Children's A-Z Vegetable Garden and the weekend Activity Tent during the summer months.

Climb the stairs of **Chimes Tower** and listen for the bells to chime.

At the **Main Fountain Garden**, watch fountains shoot water over 100 feet in the air.

In the **Conservatory**, search for Insectivorous Plants or find your favorite flower. You can also do a Stamp Hunt.

Discover hidden object in the **Peirce-du Pont House** by completing the Seek and Find activity sheet.

Explore **Peirce's Woods**, its towering trees, cool fountains, and the big fish in the lake.

Look for the **Whispering Bench** on Flower Garden Walk. You can share secrets while sitting really far apart.

In the **Meadow**, you'll find lots of birds and butterflies flying among the grasses. There are a lot of cool insects to look for too!

Enjoy the beauty, quiet, and wildlife found along the **Forest Walk**.

### *What To Do?*

Plan on visiting us during some of our special events, including:

- Fabulous Fun Days
- Ice Cream Concerts
- Discovery Days
- Summer Fireworks Shows
- Summer Nighttime Fountain Shows
- Special Concerts

### *When To Do It?*

Longwood offers children's programs and activities year-round. To learn more, pick up our **Schedule of Events** brochure in the Visitor Center lobby, or visit our website at: [www.longwoodgardens.org](http://www.longwoodgardens.org)

 N X R E S A B E L  
 D R O N E E E R D  
 V W X H I V E B R  
 B E E K E E P E R  
 N E S T W S K E P

Honeybees are amazing insects. They pollinate flowers, make honey, and help plants produce the fruits and vegetables we eat. Solve all the puzzles to get the buzz on some more cool facts about honeybees. (Hint: If you get stuck, you can find all of the answers by reading the signs in the Bee aMazed Garden or on our website at [www.longwoodgardens.org](http://www.longwoodgardens.org))

## Math Buzz

A lot of honeybees live in one bee-hive. Can you figure out how many?

$$\begin{array}{r} 12,382 \\ + 7,618 \\ \hline \end{array}$$

bees live in a typical bee hive!

How many eggs can a queen bee lay in a day?

$$\begin{array}{r} 2,382 \\ - 882 \\ \hline \end{array}$$

eggs in a day!

How many flowers can a worker bee visit in just one day?

$$\begin{array}{r} 1,404 \\ + 1,096 \\ \hline \end{array}$$

flowers in a day!

## Busy as a Bee

In any hive you would find worker bees, drone bees, and a queen bee. Draw a line from the correct beehive job to the bee.

- Queen Bee** Cleans the hive
- Worker Bee** Takes care of the queen
- Drone Bee** Feeds all the bees
- Keeps the worker bees happy
- Collects pollen and nectar from flowers
- Makes honey
- Keeps the worker bees calm
- Builds the hive

So who does most of the work in the hive?

## Bee Hive Maze

Honeybees make honey inside their hive. Help the honeybee get to the empty cell so she can make more honey.
